

Recyclable printed Banding Label

ECO-BAND®

Optimum Group™ Max Aarts has long been providing sustainable packaging solutions for all industries, contributing to reducing the consumption of packaging materials and increasing recyclability.

ECO-BAND® allows you to pack in an environmentally friendly way. The product consists of 100% proven recyclable paper and features the ECO-SEAL®. This adhesive falls outside the scope of the EU Single Use Plastic Ban, so your customers can safely dispose of ECO-BAND® with the waste paper.

Benefits

- In accordance with EU legislation (Directive (EU) 2019/904' Recital 11)
- 100% recyclable
- Food safe (BRC Grade AA)
- Saves energy by lower processing temperature on Bandall machine
- Made of FSC®-certified virgin paper
- Positioned / continuous with ECO.SEAL®

100% proven to be recyclable

The entire paper banding label portfolio has been qualified as recyclable by Papiertechnische Stiftung (PTS), an independent testing institute of the paper industry in Germany. The paper banding label portfolio has been extensively tested and qualified as recyclable.

The certificates are proof of a responsible approach to the environment and a contribution to a more sustainable future. Specialist printer Max Aarts recognises the importance of a responsible approach to the environment, which is also reflected in its FSC®-certification and Platinum ECOVADIS ranking.
